MEGHARAJ P N

FULL STACK DEVELOPER | PHP, LARAVEL, VUE.JS, REACT.JS | PYTHON, DJANGO REST, LLM/RAG

Bengaluru, India | +91 70196 75133 | meghrajdvg.pn253@gmail.com | linkedin.com/in/megharaj-pn

5+ YRS	PHP / LARAVEL	2+ YRS	LLM + RAG
Professional Experience	Core Stack, Production	Django REST Framework	AI Chatbot & Question Generator

PROFESSIONAL SUMMARY

Full Stack Developer with **5+ years** of experience building, optimizing and migrating enterprise web applications. Core expertise in **PHP and Laravel**, with **2+ years of parallel Python (Django REST Framework)** backend work and hands-on **React.js** and **Vue.js** frontend experience. Has delivered multi-tenant LMS platforms, workflow systems, video platforms with secure streaming, and **LLM/RAG-based AI features** such as a student chatbot and automated question generation. Comfortable owning work end to end: building from scratch, optimizing legacy code, migrating old systems and integrating third-party services.

TECHNICAL SKILLS

Backend: PHP, Laravel, Lumen, Python, Django, Django REST Framework (DRF), FastAPI, REST APIs, SOAP

Frontend: Vue.js, React.js, JavaScript, jQuery, HTML5, CSS3, SCSS, Bootstrap

AI / LLM: LangChain, LangGraph, Retrieval-Augmented Generation (RAG), LLM Integration, AI Chatbots, AI Content Generation

Databases: MySQL, MariaDB, MongoDB

Cloud & Media: AWS S3, EC2, MinIO, FFmpeg, Bento4 (video encoding, decoding, optimization, security)

Practices & Tools: Git, Linux, Postman, VS Code, RBAC, Multi-Tenant Architecture, Code Optimization, Legacy Migration, Agile

PROFESSIONAL EXPERIENCE

Full Stack Developer | Middle East College, Oman

Jul 2025 – Oct 2026

- Built and maintained a **multi-tenant Learning Management System** (Laravel, Vue.js, MySQL, Bootstrap) used across academic and administrative operations, with organization-based data isolation and **role-based access control**.
- Developed **AI features using LLMs and RAG**: a chatbot that gives students accurate, institution-specific answers, and a tool that lets faculty upload **Excel (.xlsx) or Word (.docx)** files to automatically generate hundreds of questions for assessments and assignments.
- Designed and enhanced core LMS modules including **assessments, assignments, program and content management, and SIS integration**, supporting digital education delivery.
- Diagnosed and resolved production issues, **optimized backend queries and page-load performance**, and shipped responsive UI improvements.

Software Engineer | SATVAM Software Pvt. Ltd.

May 2024 – Jun 2025

- Developed and maintained enterprise web applications using **Laravel, Vue.js, Python (Django, DRF)**, REST APIs and MySQL within a cross-functional engineering team.
- Built a **video platform** with **MinIO and AWS S3** storage, using **FFmpeg** for video encoding, decoding and optimization, and **Bento4** for secure video delivery.
- Led **migration of legacy applications** to modern codebases and optimized existing code to improve performance and stability.
- Delivered new application modules and third-party integrations.

Software Engineer | CODETRU, Hyderabad

Jul 2021 – Apr 2024

- Built business and workflow-driven applications for enterprise clients using **Laravel, Lumen, React.js, Kotlin** and MySQL, on projects with **100+ end users and stakeholders**.
- Developed **REST APIs, dashboards and role-based access control** features powering core enterprise workflows.
- Worked in teams from 4-member agile pods to larger cross-functional groups; built features from scratch and improved existing code.
- Contributed to migrating older projects to updated architectures.

Zoho Developer Intern | ARSCCOM Zoho Partners

Mar 2021 – Jul 2021

- Supported Zoho-based business automation and application configuration for client implementations.

Android Developer Intern | KALYT Technologies India Pvt. Ltd. **Sep 2020 – Dec 2020**

- Contributed to Android application development and feature implementation.

SELECTED PROJECTS

MEC Future – Learning Management System | Laravel, Vue.js, MySQL, Bootstrap, jQuery, LLM/RAG
Multi-tenant LMS covering assessments, assignments, programs, content management, reporting, RBAC and SIS integration, with an AI student chatbot and AI-driven question generation from uploaded Excel and Word files.

ASMR STARS – Video Platform | Vue.js, Laravel, Django REST, MinIO, AWS S3, FFmpeg, Bento4
Video platform with object-storage integration, encoding and optimization pipelines, and secure content delivery.

Partner Portal and Workforce Applications | React.js, Laravel, Lumen, MySQL
Enterprise portals and internal workflow applications with dashboards, APIs and access control.

AI / Python Projects | Python, Django, FastAPI, LangChain, LangGraph, RAG
AI-agent and retrieval-augmented applications integrating LLMs with backend APIs.

EDUCATION

Bachelor of Engineering, Electrical and Electronics Engineering | Jain Institute of Technology, Davangere | 2019
